

Acme

Acme is self-taught artist fruit of slum Pavão Pavãozinho. Born in the house in the hill area known as Vietnam, always made sure her life was art; to achieve his dream had a long way spent his childhood and adolescence shining shoes selling cake in Rio's beaches ... the graffiti opened his horizons to urban art.

Acme is the cream of the old school of Rio de Janeiro with 20 years of walking, he shared his technique with numerous graffiteiros that now emerge on the world stage and throughout his career his works were exhibited in France at the Cultural Center Chateauvallon - Toulon, 2nd place in EUROGRAFF - Paris, by Generation HIP HOP SESC RJ (2005), International Art Meeting in Argentina (2006), Art Paris at the Grand Palais-France (2011), Gallery Adler Paris (2011), MuBE - Brazilian Museum of Sculpture SP (2013) and permanent collection of the National History Museum (RJ). Currently the artist brings in his luggage a genuine work of sculpture in which addresses the conflict of man with his spirit. In 2012 we began structuring nest eagles project which aims to become a traveling art school in the community where you live.
